

The purpose of the Mini-Mathletes Tournament is to encourage students' interest in mathematics at a young age (4<sup>th</sup> and 5<sup>th</sup> grade), so they will be more eager to explore the number world and potentially join advanced classes in middle school and Mu Alpha Theta in high school. This allows young students to experience a creative, competitive math environment. Ultimately, we hope the kids who attend will leave the contest with a heightened appreciation for math!

**Thank you for participating!**

Participating Schools (2022)

Alpharetta Elementary  
Cogburn Woods Elementary  
Crabapple Crossing Elementary  
Dolvin Elementary  
Findley Oaks Elementary  
Fulton Academy of Science and Technology  
Fulton Science Academy  
Hembree Springs Elementary  
Lake Windward Elementary  
Manning Oaks Elementary  
Mountain Park Elementary  
Sweet Apple Elementary

Milton Math Team

**2022 Program**

*Find the joy within what you do, and share it with those around you.*

**Carnival Game #1: Candy Estimation Game:** \*Each student will be given 2 paper slips to provide estimation on 2 candy jars (amongst 6 jars). The closest guess without going over wins. \*Game closes at 1:30pm!  
**Game #2: "Pig" Dice Game:** the player that scores the most points after 3 rounds wins and moves to the next round out of group of 4. **Gameplay:** Each turn, a player repeatedly rolls a die until either a 1 is rolled or the player decides to "hold." \*If the player rolls a 1, they score nothing for the whole round and it becomes the next player's turn. \*If the player rolls any other number, it is added to their turn total and the player's turn continues. \*Each time a player rolls a 6, they have to another dice to their next roll. \*If a player chooses to "hold", their turn total is added to their score, and it becomes the next player's turn. Each round, players restart with 1 die. (Winners of individual games will be called back to play for top 2.)  
**Game #3: Ring Toss:** Each participant will be given 6 rings to toss onto water bottles. Each bottle is marked with points (5, 11, 21, 31 pts). Each bottle can only have 1 ring on it. (Top 2 players wins candy prize)  
**Game #4: Paper Airplane Contest:** Each participant will be given 3 minutes to create a paper airplane. The 2 paper airplanes with longest airtime distance will win candy prizes. One throw per contestant. No practice throws!  
**Game #5: Mental Math Contest:** Students have 3 minutes to solve as many problems as they can. No markings allowed on paper except for writing the answer. (Top 2 scorers win)  
**Game #6: Team "Stack and Pass" Jenga:** Teams of 2 will compete against other teams to remove and stack the highest level of blocks within a 3-minute limit. (Top team wins)  
**Game #7: Team Table Shuffleboard:** Teams of 2 compete against another team (through 3 rounds) to score the most points in order to move to next round. The winning team will receive a final score that is the difference of theirs and opponents' scores. (Top team of the day wins candy prize)  
**Game #8: "SET" tournament:** 4 players compete at a time to quickly find a certain number of 3 card "sets" based on color, shape, number, and shading. First to 4 sets will be eligible for candy prize. (Top 2 players win candy prize)

**Event Schedule:**  
**9:30 – 10:00 AM** Check-in at registration table in atrium  
**10:00 – 10:10** Welcome, Mathletes!  
**10:15 – 11:15** Test #1 (Ciphering): 10 problems – 11pts if correct by 2nd min, 5 pts by 4th min  
**11:20 – 11:30** Refreshments (will be provided)  
**11:30 – 12:30 PM** Test #2 (Multiple Choice) – 30 problems in 60 minutes, 6 points each.  
**12:30 – 1:00** Lunch (students must bring their own)  
**1:00 – 1:45** Math Carnival Games (with candy prizes!)  
**2:00 – 2:30** Awards Ceremony  
**Trophies for Top Five 4<sup>th</sup> grade and Top Five 5<sup>th</sup> grade students**
