

Directions for Uploading Projects/DBAs to Edgenuity

You have a couple options for uploading your work in Edgenuity

- If you take a picture of your work, you can then paste your picture into one of the accepted file types. For example, you can take a picture then copy and paste the picture into a Word document.

Accepted file types: .ppt, .pptx, .xls, .xlsx, .doc, .docx, .zip, .pdf, .accdb, .msg

- Suggestion: I use a free app called CamScanner to convert paper to PDF so that I can share it electronically. You can even do a multiple part project in one PDF file by using the Batch feature on CamScanner then you can email the PDF to yourself to save and upload the file in Edgenuity.

There is also an option to scan a document from the Notes app if you have an iPhone accessible to you (use the + sign at the bottom of a note)
